

SUMMER INTERNSHIP

MAY 22 – JUNE 16, 2017

Historic Structure Report/Cultural Landscape Report

Mesa Verde National Park – Administrative District
NHL

Four positions available in architectural conservation and/or site management to prepare Historic Structure Reports for three stone and timber residences built 1926-1938 as part of the historic Spruce Tree Point Administrative District within Mesa Verde National Park. These are the first and among the best culturally contextual architecture built by the NPS and now part of a National Historic Landmark District. Focus will be on the documentation and recording of the design, construction, and condition assessment of the buildings and their landscape with recommendations for their rehabilitation. Interns will have 4 weeks site time followed by an additional four weeks (tbd) for preparation of the report. Housing available at Mesa Verde. For more information see http://www.conlab.org/acl/edtr/edtr_intern.html

DETAILS

Time Period:

Fieldwork:

May 22-Jun 16, 2017

Report Preparation:

4 additional weeks tbd

Salary: \$15/hr-40 hr/wk

Travel and housing
provided.

Mesa Verde is in southwest Colorado in the Four Corners area, a place of astonishing natural and cultural diversity with many of the country's pre-eminent archaeological sites, rural homesteads and ranches, and industrial landscapes including lumber and mining towns.
